December 2005 Update

JJM Evangelistic team on a mission to spread the Gospel. Can you believe all 8 of them fit in the auto-ricksha?

Pastor Solomon Raj handing out tracts in the street to school children.

Solomon starts each day at the orphanage praying with the children. Before they go to school they pray for God's presence all day and for good health. Then Solomon hands them each their daily chewable vitamins - thanks for helping to provide these supplements to help them grow up strong and healthy! Remember all of them in your prayers.

This is Brother Mangya. We just helped him have a successful heart surgery. They plucked veins from his left leg to fix his heart. He thanks the donors who made this possible and testifies that "God is alive and real to me. God spared me for his work." His wife and two young sons have also found the Lord and are grateful for the medical help. We have also helped several others with serious medical needs.

On October 6, 2005 Pastor Solomon and JJM held their first youth retreat. Pastor taught from Luke 15 about the prodigal son. Praise the Lord 10 young boys and girls found and accepted Jesus at this retreat. Please pray for all of them as they begin a new life and face discrimination from peers and family. Pray for JJM as they disciple new converts.
